ALPHA OMEGA WOMEN'S ALUMNAE

*The First Ukrainian Women Graduates
from the University of Manitoba
Prior to 1940*

Feb. 16, 1974

Winnipeg Centennial 1974

Foreword

In commemoration of Winnipeg's Centennial, 1974, the Alpha Omega Women's Alumnae has published this booklet honoring the first Ukrainian women who graduated from the University of Manitoba prior to 1940.

As these women are our forerunners in attaining University degrees, we feel that they deserve special recognition and praise. Before 1940, women were not usually encouraged to go on and receive a higher education. People felt that their place was in the home, not in the professions or businesses. We give credit to their parents who had the foresight to realize that a University education was important for their daughters and often made personal sacrifices to see that they obtained their degrees. Today, they may be very proud of their Ukrainian daughters. As we look through the pages in this booklet, we see that the accomplishments of these women are many and varied. We have graduates in medicine, law, pharmacy, education, home economics, arts, science, and social work. Without doubt, they have improved the lives of the communities in which they live. Future women graduates will benefit from the knowledge and example of the lives of these women and other women who have graduated after them.

We pay special tribute to these first Ukrainian women University graduates for inspiring women students on to higher education and training and for their contributions to the Ukrainian community. They have been, and will continue to be, leaders in their communities.

As chairman of this Centennial project, I would like to express my sincere appreciation to every member of the Alpha Omega Women's Alumnae, for without their efforts, it would not have been possible to publish this booklet. I especially would like to thank my working committee: Irene Humeny, Leona Burdeniuk, June Dutka, Halia Charney, Nadia Negrich, Olga Uhryniuk, Evelyn Melnyk, and Sylvia Uzwyszyn.

DARCIA RATUSKI,
Chairman, Winnipeg Centennial Project, 1974.

Українська сага в Манітобі

На підставі різних історичних джерел і матеріалів тепер уже напевно знаємо, що українці почали поселяватись на просторих степах Канади ще задовго перед цим століттям.

Кожна така українська родина — батьки і діти — починала своє життя в новій країні. Спершу будували якусь малу хатину, потім примітивним знаряддям корчували ліс, очищували землю з каміння, щоб виробити хоч малий кусник поля та засіяти його золотим зерном пшениці привезеної з рідного краю. Треба ж було забезпечити своє і своїх дітей життя.

Гірке те життя було перших наших поселенців — піонерів у Канаді. Вони працювали важко від сходу до заходу сонця та переносили всякі інші труднощі і невгоди: сусіди далеко, а навіть як з ними деколи доводилось зустрічатись, то не знаючи англійської мови, не було приязної розмови, ані того щирого відношення, до якого вони звикли в рідному селі. Літні пори були переважно сухі і гарячі, зими довгі і жорстокі; комунікації з зовнішнім світом зовсім не було, бож не було тоді ані телефонів, ані радія чи телевізії, не було й жадної музичної чи драматичної розваги. Словом, життя в тих перших роках було дуже важке. Наші люди почувалися чужинцями між чужинцями. А часто чужинці дивились ще й з погородою на них мовляв, „Чого ви сюди приїхали?“ І так було довгі роки.

Але наші піонери, хоч часто були розчаровані і знеохочені, терпіли голод, холод і недостатки, не піддавались. Чому? Тому, що вони були глибоко релігійні — вони вірили у краще завтра та в кращу будучність, яку вони сподівалися збудувати для себе і своїх дітей на новій землі. І тому вони далі змагались з усякими злиднями та невгодами.

І дійсно завдяки їх наполегливій праці доля ставала для них ласкавішою. Умовини життя почали змінюватись на краще! Оброблені ними поля давали вже гарні приходи. Діти пішли до школи. Спершу до „Літел Рид Скул Гавз“, до якої часто треба було пішки ходити одну до п'ять або й більше миль, а згодом і до вищих шкіл. Батьки ходили до вечірніх шкіл і там навчались говорити, читати і писати по-англійськи.,

Незадовго будували свої церкви, а при них залі. Там почали брати участь у церковному і громадському житті та взагалі більше цікавитись різними суспільними справами. На їх домагання уряд Манітоби погодився створити Учительську Колегію, спершу у Вінніпегу, пізніше перенесену до Брендону, з якої вийшло багато здібних учителів. Це були головню українські студенти, що вирости в Канаді, а деякі з них, що приїхали з краю і вже мали гімназійні студії.

І саме вони, закінчивши навчання в Учительському Каледжі в Брендоні, топтали перші українські стежки в канадському житті. Та були перші українські вчителі в провінції. За ними пішли інші. І вже 1919 року прийнято першу кваліфіковану українку на учительську посаду у Вінніпегу. Нею була Марія Корецька — тепер уже на емеритурі.

І це вже був наш здобуток.

Після кільканадцяти років українські вчителі відіграли насправді велику роль у шкільному, соціальному і політичному житті своїх шкільних округ.

Відтоді, заохочені своїми батьками, щораз то більше українських дітей ішли до шкіл і ставали добрими українськими вчителями. А з часом, зрозумівши значення освіти, переїздили до Вінніпегу, деякі навіть з сусідніх провінцій, і записувалися до Манітобського університету на високі студії в різних професіях.

Не легко приходило це все студентам. Оплата університетських студій і помешкання були високі, а їхні матеріальні спроможності малі. А тоді не було жадних стипендій, ані державних грантів. Щось такого не можна було собі тоді навіть уявити. Але наші завзяті студенти пробивалися крізь недостатки життя. Під час вакацій важко працювали фізично на удержання в школі і так переважно власними силами закінчували освіту.

А закінчивши, навколішки дякували Богові за допомогу. З якою ж радістю вітали їх батьки, а то й ціла громада під час Градуаційних днів, коли вони вже здобули академічний ступень у своїй професії.

Згадуючи це все, бачимо які то насправді були великі зусилля нашої молоді, а то й розчарування опісля, бо не легко було тоді дістати працю після закінчення студій.

Але з часом усе змінилось на краще, всі труднощі переможено. Наша освічена молодь своїми здібностями показала, що вона не гірша від іншої, а в багатьох випадках проявила себе багато кращою і вкінці її признано на рівні з іншими в усіх галузях і відтинках професійного життя. Це був великий крок уперед.

В продовж останніх 50 років маємо уже тисячі українських градуантів, а між ними багато, багато жінок, у різних професіях громадського і політичного життя: лікарі, адвокати, дентисти, професори, директори шкіл, інспектори, мейори, радні міста, посли і міністри провінційних і федеральних урядів, судді, сенатори, і т. д., і то не тільки в Манітобі, але й у цілій Канаді і в З'єднаних Стейтах Америки та й у цілому вільному світі.

З нагоди 100-ліття міста Вінніпегу, товариство українських градуанток „Альфа і Омега” у своєму проєкті з цієї особливої нагоди рішило вшанувати піонерок-градуанток Манітобського університету до 1940 року. На мою думку це буде тим самим і пошана нашим першим піонерам, а далі і першим українським учителям і тим всім, що йшли за їх прикладом.

Без сумніву наші батьки-піонери були б надзвичайно раді і горді, якщо б побачили, що їх важка праця, завзятість, витривалість і глибока віра в Бога та в краще майбутнє не були даремними, а увінчалися блискучими успіхами.

І тому нам треба тримати зв'язок з минулим та далі гордо нести смолоскип, запалений нашими піонерськими батьками і матерями. А теперішнє молоде покоління повинно жити в повній гармонії і комунікації зі старшими, шукаючи поради і помочі одні в одних для взаємної користі.

А вже понад все, треба затримувати в наших родинах і наших громадах українську мову, традиції, культуру і те все, що наші батьки з такою любов'ю і прив'язанням до свого принесли зі собою зі „старого краю”, з України, майже сто років тому, коли поселялися на преріях тоді чужої, а тепер нам усім такої рідної і дорогої вільної країни — Канади!

Jessie is married to Maurice Kostyrsky (Coster) and has one son, Gregory.

Mrs. Coster would like to see older graduates, with their knowledge and experience give guidance to the youth of Ukrain-

ian descent in our universities. She feels that young students of today are much more mature and independent and can generally work towards gaining their goals and enjoying a satisfactory life, but a few "flounder" and with some guidance the end result might have been different. If involved, the older graduates, because of their memberships in various Ukrainian organizations, might be able to give support to the young students' programs. University students and young graduates would gain valuable experiences and would be more encouraged to remain and work in the Ukrainian community. Gradually, they may be able to assume responsibility in the existing Ukrainian organizations more readily - because they would have had the opportunity to prove their abilities. In this way, there would be some continuity.

Also, if all the universities in Canada were involved, contact could be established more easily with the out-of-town students.

JESSIE OSTAFF was born in Winnipeg, Manitoba, the daughter of Stephen Ostaff and the late Martha Ostaff. She received her B.A. in 1935 from the Faculty of Arts at Wesley College and her B.Ed. in 1936 from the Faculty of Education at the University of Manitoba.

She taught school for several years and her special interest was the teaching of languages.

Miss Ostaff has been involved in teaching children and young people crafts, Sunday School, Junior Red Cross, folk dancing and dramatics. In college, she belonged to the French club and drama club. She edited school and club newspapers and has translated articles from French into English and one book from Ukrainian into English. She is interested in the theatre, ballet, and the study of foreign languages.

Jessie believes that we should live each day to the best of our ability.

OLGA VERA ATKINSON was born in Dauphin, Manitoba, the daughter of the late Mr. and Mrs. Cornelius S. Prodan. She received her B.Sc. in 1936 from the Faculty of Science at the University of Manitoba.

Mrs. Atkinson worked as a bank clerk at the Canadian Bank of Commerce, Winnipeg; seed analyst at the Canada Department of Agriculture, Winnipeg; secretary to the Publicity Director of the Canadian Wheat Pools, Winnipeg; agricultural scientist, Seed-borne Diseases, Central Experimental Farm, Ottawa, Ontario; and secretary with a Public Relations firm in St. Catherines, Ontario.

She has been involved in various activities while living in Winnipeg, Ottawa and St. Catherines. At present she is a member of the University Women's Club of Victoria, B.C., and is also a life member of the Alpha Delta Pi Sorority.

Olga is married to Robert G. Atkinson and has one daughter, Dena.

SALOMEA (SALLY) HAWRISH was born in Sheho, Saskatchewan, the daughter of William Uhryniuk and the late Maria Uhryniuk. She graduated in Pharmacy in 1936, from the Faculty of Pharmacy at the University of Manitoba.

After graduation, Mrs.
